## FTC Keypad Entry System

### Control who can operate your forklifts

**1000 different entry combinations | Zinc alloy enclosure | Vandal resistant | 12-80V DC capability | Dual relays for multiple device operation | Pin code or swipe card functionality | Multiple security modes | Secure push button terminal | Weather proof | IP66 rated**

The Fork Truck Control keypad entry system is a simple stand alone device that controls who can operate your forklifts and other MH equipment. This product has dual functionality and can store up to 1000 individual pin codes and can offer access using an RFID swipe cards.

This system will help to improve the security of your site by preventing unauthorised access to your valuable plant and MH equipment. This system can be installed with a push button start option or as a simple immobilisation system.

The FTC keypad system is quick to install and is very cost effective.
